WALKER BROS "NEW" DECKING DISPLAY

LOCATED IN OUR
FLOORING DISPLAY
Please see our helpful
staff for more information

WALKER BROS IS THE LARGEST STOCK OF DESIGN PINE PRODUCTS ON THE COAST.

NOT ALL PRIMED TREATED PRODUCTS ARE THE SAME.

Design Pine's revolutionary blue primer has greater flexibility and UV resistance to give a more durable undercoat for the life of the painting system.

The technology in the Design Pine primer was a world first the time of release as it includes a moisture management system to slow moisture ingress and durability second to none as it can remain exposed on a building site for 12 weeks before it will start to deteriorate, thus aiding to the dimensional stability long term performance of the product range. Developed over three years, the Design Pine primer is specifically designed to coat solvent based timber preservation systems.

The result is a genuine primer coating that is ready to directly top coat with any quality exterior paint.

You do not need to sand the primer off.

All primer systems are not the same.

Ask for Design Pine by name.
